

Energy Intelligence Residential Solution (EU)

A whole-home, scalable energy storage system (ESS) for European markets

The Tigo ESS includes the hybrid Energy Intelligence (EI) Inverter (up to 15 kW), EI Link connection box with automatic transfer switch, and EI Battery with up to 12 kWh storage for fast, flexible, and dependable solar installations.

- Single- and three-phase options
- Whole-home backup with 63 A max. input current supporting 150% oversized PV power
- Self-consumption, backup, and time-of-use energy management
- Rapid battery charge and discharge rates
- Quick installation and commissioning
- Integrates Tigo TS4 module level power electronics (MLPE)
- Comprehensive ESS management with the Tigo EI app
